*Cover Photo: Eagle Beach/Gold Coast Liner

Color and tile aspects may differ from images shown throughout the brochure.
Please see your Merlin Dealer for actual vinyl samples.

CFFA is the Chemical Fabrics & Film Association. Products certified to CFFA-P-101 have passed a series of test methods within CFFA's Recommended Minimum Performance Standards for Vinyl Swimming Pool Liners - In-Ground, which have been identified as important and relevant for the performance of in-ground vinyl swimming pool liners that are 20 mil or greater. Merlin Industries exclusively offers CFFA approved vinyl liner material.

We have made it our mission at Merlin Industries to meet and exceed these expectations to provide you with the best possible product.

When you see *Upcharge Applies, what does it mean?

Standard pricing starts with traditional vinyl material in 20 mil. Upcharges apply for a variety of upgrades.

An upcharge will apply for:

- Textured Material
- 27+ mil Material
- Aqua-Intense Material with texture, luster, or both
- Aqua-Max Material
- Mix and match with different patterns

The logo for Aqua Intense, featuring the word "Aqua" in a light blue, serif font and "intense" in a bold, italicized, black sans-serif font. A bright starburst effect is behind the "i" in "intense".

The logo for Aqua Max Liners, featuring the word "Aqua" in a light blue, serif font, "MAX" in a large, bold, black sans-serif font, and "Liners" in a smaller, black sans-serif font to the right. Below "MAX" is the text "FROM MERLIN INDUSTRIES INC." in a small, black sans-serif font.

The Merlin Guarantee

All Merlin Liners utilize 100% High Performance North American vinyl!

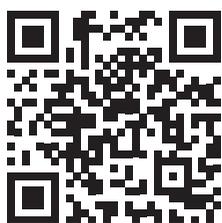

All of our vinyl liner patterns come from suppliers located in the United States or Canada. We refuse to import low-cost vinyl from countries whose formulation and quality standards are not regulated like they are in North America. We can ensure that high quality standards are followed in our vinyl production, compared to companies that rely on cheap off-shore manufacturers.

The phrase “Make Mine a Merlin”, signifies Merlin Industries is your assurance of a professional product and the best value for your investment. Our liners are made with better-quality materials that are made to withstand the elements and last over time.

In a Merlin liner, appearance and quality construction come together beautifully and it all begins with the pattern design. We have an array of pattern selections to fit any style. When you see the term traditional vinyl, this is our standard material. Then we have other collections with special features which are considered upgrades from traditional vinyl. Check out our 2026 Collection which features Aqua-Max and Aqua-Intense product lines. Also check out our Value Max for free wall upgrades to 27 mil and Super Value Max which offers free upgrades to 27 mil for both wall and floor.

Our liners are custom designed to provide the best fit and durability. Our designs are specific to your pool and do not rely on extreme stretch to fit. Each liner is CAD-designed and custom manufactured to accommodate steps, angles, objects, and unique configurations.

Merlin’s Silk Seam process creates a flatter, less-visible seam that is easy on your feet and less likely to catch debris!

Merlin Signature liners feature exclusive patterns created in collaboration with top professional designers—bringing style and sophistication to your pool

Choosing the Perfect Liner

Consider this:

Your pool's water color will look different based on various environmental factors including time of day, weather, and the amount of greenery in your landscaping.

The three Island Granite photos above and the three Honeycomb Mosaic photos below show how the same liner can look different based on various environmental considerations.

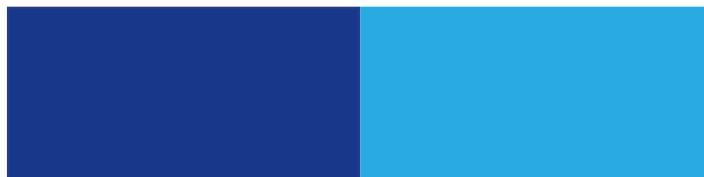

Find the Right Water Color For You

When selecting a vinyl liner pattern for their pool, most people want to know what color it is going to make the water appear. Merlin Industries understands how important water color is in the liner selection process. To help with this, we have added a water color chart to our liner patterns.

Please keep in mind that these colors are a general guide and that the actual water color may be different based on conditions surrounding your pool including landscape and greenery, time of day, and depth of your pool.

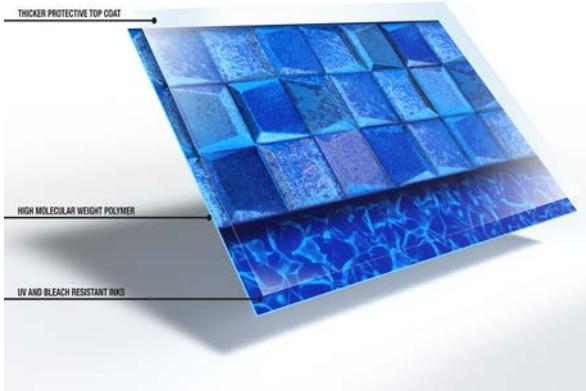

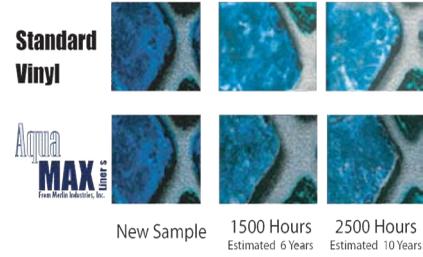

Look for our color coded QR codes throughout our liner selections.

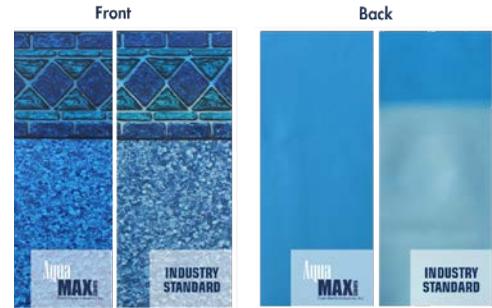

2026 Collection

UV and Weathering Resistance Test Results

Chlorinated Pool Results

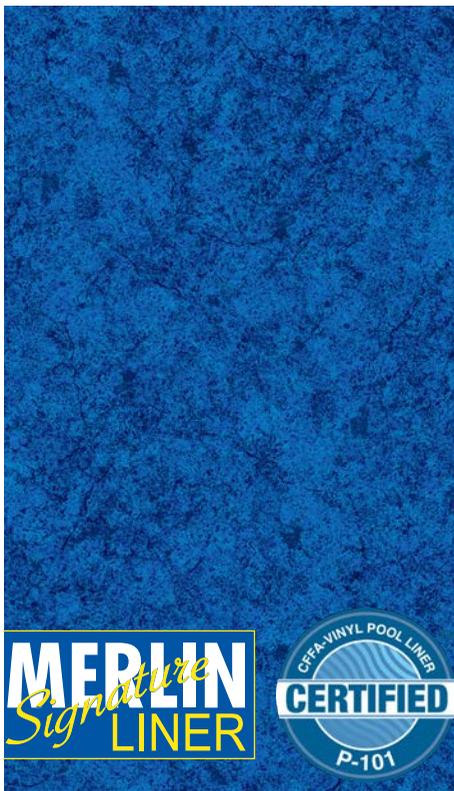

For years, pool owners have been looking for a better pool liner, only to be told that all they can do is get a thicker liner. Thicker liners are still subject to the same ultraviolet, chemical, and heat damage as standard liners.

Aqua-Max liners are specifically formulated of a high molecular weight polymer to provide greater ultraviolet resistance and far greater resistance to today's pool chemical systems and chemical misuse. Aqua-Max vinyl also contains over twice as much anti-fungal and anti-bacterial protection than standard liners.

- 50% more top coat to help prevent scuffs & stains
- 25% better resistance to chlorine bleaching
- 25% longer life expectancy than standard liners
- 20% more UV resistance for longer lasting color

Customize Your Liner

Every Merlin Liner is made custom ordered to fit your needs. In addition to the customized fit, you can also customize your liner pattern choice in many different ways.

All Over Patterns

Every Merlin pattern is available to order in a beautiful borderless design at no extra cost! If you see a floor you love but you don't enjoy the tile, ask for the floor as an all over pattern instead!

Outer Banks All Over

Oceanside All Over

Mix and Match

Want your steps to be solid and the rest of your pool to have a pattern? Want two different patterns? Want to pair just a tile with a different wall and floor? Merlin has you covered with all your custom liner needs. *Upcharge Applies.

Tex-Step Textured Vinyl

Tex-Step textured vinyl is the new standard for your pool steps, sundecks, swimouts and benches.

Merlin offers textured vinyl in all of our floor patterns to coordinate with your pool bottom choice. Textured vinyl provides better slip resistance than standard vinyl and helps make your pool safer for kids, friends and summer fun. You will automatically get textured vinyl on your steps and benches unless otherwise requested.

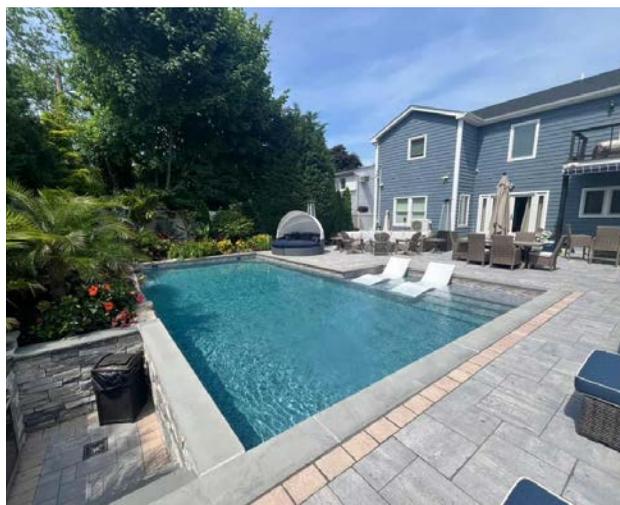

Liner Thickness

Many of our liners are available in 20 mil or 27 mil. We also have a 34 mil option available. Choose the mil that is best for you! Check out our Value-Max and Super Value Max patterns to save on upcharges!

Featured Mix and Match Pattern:

Sanibel Tile paired with Lake Como

Eagle Beach Tile on Island Granite
